ABOUT ORGANISER

KNC Services, founded in 2014, The brainchild of KNC Services is Ms. Kranti Nagvekar, who is the founder. She is a passionate and hard-working woman in the industry, and she is the only female entrepreneur in Jewellery & Machinery exhibition industry.

KNC is rapidly expanding its B2B and B2C jewelry exhibition businesses. The company has made significant contributions to trade domestically and internationally, launching new markets and revitalizing existing ones. KNC has a presence in key markets like Kolkata, Kerala, Odisha, Tamil Nadu, Gujrat and Mumbai and attracts a large contingent of international buyers annually. The company is now entered KSA, Dubai and Bangladesh to organize B2B trade exhibitions for jewelry and machinery.

Ms. Kranti Nagvekar
Founder Knc Services

As an outward-looking industry, we are constantly focused on business prospects beyond our borders. The gem & jewellery industry, which is one of the bright stars of the economy, will get a head start in these regions. We are already witnessing remarkable growth in exports to UAE, Saudi Arabia and many more, to help the Indian economy and boost the Jewellery market, we are introducing the new technology in our upcoming show JMAIIE to showcase their expertise and new technology machines from all over the world.

I am happy that the KNC calendar organizing exhibitions to promoting India-made gems & jewelry across the world. These activities have ensured consistent demand for our products and have elevated the global perception of 'Made in India' jewellery and Machinery. JMAIIE 2025 will be the biggest and only standalone show of Machinery & Allied products, I am confident that "JMAIIE 2025" will give a perfect start to the industry, being the first show of the calendar year.

I wish everyone a successful JMAIIE 2025!

ABOUT ASSOCIATION

JMAIIE, the first ever independent jewellery machinery and allied products show's first three editions were a huge success thanks to the valuable support of JMA Forum members. The initiative was unanimously upheld by everyone as it was the need of the hour. There was definitely a need gap in the market which was addressed by JMAIIE. The success of the show also depended on the hardworking and dedicated team of KNC Services; they worked tirelessly to deliver a world class show. The four days of extravaganza was celebrated by the domestic as well as international companies, be it exhibitor or trade visitor. The show was buzzing and delivered the desired result. JMAIIE helped domestic companies exhibiting, expand their reach, widen the horizon.

MR. FARHAD SETHNA
CHAIRMAN, JMA FORUM

The JMAIIE is the first and only international exhibition on jewellery machinery, held in Mumbai, a key manufacturing hub. Organized by JMA Forum and KNC Services since 2020, the event offers over 300 exhibitors who exhibit the latest equipment, technology, consumables, and tools. It provides an excellent platform for Indian machinery manufacturers to promote their products both domestically and internationally. The JMAIIE aims to showcase cutting-edge technology and machinery, foster networking and collaboration within the industry, and provide a valuable platform for both exhibitors and visitors to explore new possibilities and expand their businesses. The event aims to contribute to the growth of the jewellery manufacturing sector. I wish all the exhibitors a great success in the upcoming 4th edition of JMAIIE.

EXHIBITING CATEGORIES

3D Printing Machinery	Enamels & Hardeners	Micro Sand Blaster
3D Printing Resin	Faceting Machine	Moulds
Alloys	Fashion Jewellery (Imitation Jewellery)	Nitrogen Generator
Annealing Furnace	Findings	Polishing Machines
Assaying Equipments	Gold Testing XRF Machines	Refining (Gold, Silver, Platinum)
Ball Making Machine	Graining Machine	Rolling Mills
Bangle Making Machine	Hallmark Setup	Safe Lockers
Burn Out Furnace	Hollow Tube & Chain Machines	Scrubbers
Casting Machines	Hydraulic Press	Software
CCTV	Insurance	Solutions and Shampoo for Polisher
Chain Making Machine	Investment Mixer	Sprue Cutters
Chatka Cabinets (Acid Hood with Scrubber)	Jewellery Designer	Stall Contractors
CNC Lathe Machine	Jewellery Tools	Strip Cutting
CNC Milling Machine	Lapping Machine	Trays
Consultants & Architects	Laser Cutting Machine	Ultrasonic Cleaners
Diamond Polishing Machine	Liquid Silicone Mixer	Vacuum Cleaners
Dryers	Logistics	Water Jet
Electroforming Set-up	Mannequins	Wax Injecto
Electroforming/ Plating Chemicals	Media & Compound.	Weighing Scales
Electroplating Machine	Melting Machines	Wire Drawing Machine
Embossing & Cutting Dies	Metal Detectors	All types of Jewellery Manufacturing Machines
Packaging & Display Boxes		
Enamelling Set-up		

PARTICIPATION COST

RATE PER BOOTH (9sq.mtr Stall)

JMA MEMBER :1,26,000 + GST

NON-JMA MEMBER :1,35,000+ GST

INTERNATIONAL PARTICIPANTS RATE PER BOOTH : 2400 USD

DELIVERABLES (9sq.mtr Stall)

- 2 System Tables - 4 Chairs - 4 Lights
- 1 Sockets of 15 Amp - 1 Fascia - 1 Dustbin

Fischer Measurement Technologies (India) Pvt. Ltd., is an ISO 9001 certified company and 100% subsidiary of Helmut Fischer Group, Germany. Founded in 1953, Helmut-Fischer is an innovative leader in supplying XRF instruments and solutions for precise Gold, Silver alloys, platinum and precious metal testing.

Today FISCHER instruments are widely being used in the field of Hallmarking Centre, Testing Labs, Assaying Centre, Jewellery Manufacturing, Fashion Jewellery, Retail Jewellery Shops and various other industries.

Fischer India offers its customers the worldwide advantage of its parent company with local expertise. We are the most experienced leader in this field as it has more than 70 years of competency and knowledge built since its inception in 1953. Moreover, Fischer India is the only company with XRF Gold Testing Machine having direct operations in India with branch offices and regional engineers spread across the country thus securing the investment of its customers.

Fischer India is distinguished as the sole company in India offering XRF Gold Testing Machines with direct operations. This unique advantage underscores its commitment to quality, reliability, and customer satisfaction. By combining global innovation with local expertise, Fischer India continues to set the benchmark in the field of precious metal testing and analysis.

In addition to its cutting-edge technology, Fischer India is dedicated to continuous improvement and customer-centric service. The company's ISO 9001 certification underscores its commitment to maintaining the highest quality standards in all its operations. Fischer India's customers benefit from the advanced technology and extensive experience of Helmut Fischer GmbH, ensuring they receive the best solutions tailored to their specific needs.

Fischer India's role in the precious metal testing industry is pivotal, providing the tools and expertise necessary for accurate and reliable testing. The company's focus on innovation, quality, and customer service positions it as a trusted partner for businesses in the precious metals sector. By continuously advancing its technology and expanding its support network, Fischer India is well-equipped to meet the evolving needs of its customers and maintain its leadership position in the market.

DG1 400 - PATENTED ICE LATHE FOR CHAINS

High precision ice Lathe mod. DG1 400 suitable to carry out flat lapping on chains

DESCRIPTION

The ice lathe has a cylinder $\varnothing 400$, laid on two lateral cast iron supports fixed to a sturdy rectified bench, where the tools holder carriage is arranged on. The machine is planned to get the maximum rigidity and stability in order to guarantee the best quality on precious chains lapping, even in case of several removals.

Jalpa Machinery & Allied LLP

Auto-feed Steam Machine

- ▶ 4 HEATER COILS
- ▶ ONE CLICK OPERATION
- ▶ LOW-MAINTAINANCE
- ▶ MORE EFFICIENT

Hand And Foot Cleaning Machine

- ▶ PROXIMITY SENSOR OPERATED SYSTEM
- ▶ MANUAL MODE FOR LONG RUN OPERATION TIME
- ▶ DIGITAL TEMPERATURE CONTROL
- ▶ SPONGE AT BOTH SIDE FOR WATER SOAKING
- ▶ HOLDING HANDLE FOR SAFE WALKING
- ▶ AIR AGITATION FOR EXTRA DUST REMOVING IN 2 TANK

Hexagonal Ultrasonic

- ▶ HEXAGONAL SHAPE MAKE MORE POWER
- ▶ 6 WAY VIBRATION

Electro Polishing

- ▶ EASY AND SIMPLE TO OPERATE & PROCESS.
- ▶ SIMPLE PROGRAMING & OFFERS STABLE PERFORMANCE
- ▶ SUITABLE FOR ALL CARAT OF JEWELLERY.
- ▶ 92 TO 98% OF METAL IS RECOVERABLE, BY REFINING PROCESS.
- ▶ REMOVAL PROCESS OF THE METAL IS FOLLOWED IN A STEADILY MANNER, THEREBY LOW CURRENT DENSITY AREA IS COVERED VERY WELL.
- ▶ ENRICHES SHINE ON THE METAL AND DIAMOND AREA.
- ▶ REDUCES MANUAL POLISHING TO A MINIMUM

Sparkle Polishing

- ▶ NO LOSS OF METAL
- ▶ EASY TO USE
- ▶ SAVE YOUR TIME
- ▶ BULK POLISHING
- ▶ GREAT REASULTS

Hot Air-flow Dryer

- ▶ SCRATCH LESS DRY
- ▶ 20X MORE EFFICIENT
- ▶ QUICK RESULTS
- ▶ SAVE YOUR TIME

Circular Vibrator

- ▶ LIGHT WEIGHT METAL JEWELLERY POLISHING WITHOUT DAMAGE.
- ▶ VARIABLE SPEED CONTROLLER.
- ▶ USE MULTIPLE TYPE OF MEDIA FOR FILLING, DEBRING & POLISHING ON ONE MEDIA.
- ▶ THREE-WAY PRESSURE ON JEWELLERY SO GIVES BEST OUTPUT.
- ▶ GIVE HIGH POLISH.

Key Features:

- Scanning through image/ design file repository to find similar or identical files.
- AI model trained on user's file database.
- Send 3D models of search results directly to build preparation software.

MACHINERY & EQUIPMENT FOR JEWELRY

X5 MEGA POLISHING MACHINE

It is a complete predator with the most powerful engine at an affordable price with 6750 m3 suction power and 2800 rpm engine power. This machine, which provides easy cleaning with its hard plastic pipesystem, is one of the latest masterpieces of years of R&D work.

X6 MEGA POLISHING MACHINE

It has 6750 m3 suction power and a 0-4500 Rpm polishing motor with 4 emergency stops. Hard plastic pipesystem that provides easy cleaning. It is a masterpiece produced as a result of our years of R&D work and a complete price-performance monster.

X7 MEGA POLISHING MACHINE

X7 Mega polishing machine is the world's most powerful polishing machine with 7250 cubic meters of suction power, premium beech woodbench, premium armrests, speed-adjustable polishing machine, 4500 rpm very powerful engine, protection against engine temperature with its closed engine, hard plastic pipe system that provides easy cleaning.

BEHIND THE BRAND: OUR STORY

Ashlyn Chemunoor Instruments Pvt Ltd. the pioneer since 1989 with the experience of more than 33 years in promoting gold purity testing machines, laser markers and gold melting induction furnace. Our commitment to customer satisfaction, innovative marketing and prompt service has earned us a base of 200,000+ clients with a huge percentage of repeat sales from a loyal clientele.

An extensive service network comprising site service engineers stationed in strategic locations has been one of the cornerstone of the group's success. We are the most preferred company as major jewellery retail groups in India and the Middle East are our esteemed customers. We are reachable 24*7 to our customers and provide solutions to them within no time. Our own manufacturing unit along with R & D team helps us for continuous updations and for better advanced technology.

“ WE DON'T JUST SELL PRODUCTS, WE PROVIDE SOLUTIONS ”

ALWAYS ASK FOR PURITY CHECK

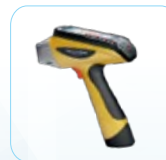

Gold Testing Machines are used by jewellery retail stores, assaying centres, hallmarking centres, jewellery manufacturing, refineries, banks, financial institutions and fashion jewellery to test the purity of the ornaments or samples. The higher model machines are used in All Element Analysis, ROHS Analysis and Plating thickness analysis.
